2023 Event Highlights

celebrating **10 years**

You're invited to the 10th annual Docks Expo & Marina Conference!

The Docks Expo kicked off in St. Louis at Union Station with just 68 exhibitors, but it didn't take long to outgrow the place. So, we moved to Nashville in 2016. In the last two years, we've expanded our floorplan to fit over 175 exhibitors, and we're thrilled to be known as the fastest-growing marina event around!

Join us for a milestone celebration as we mark a decade of Docks! This year's event is set to be bigger and better than ever, with a focus on innovative solutions to elevate your marina facility.

Programming Highlights: This year's agenda is packed with sessions designed to meet growing demands and explore new strategies for marina management. Dive into education sessions on infrastructure and design, revenue tactics and best management practices to tackle rising operating costs, staffing challenges and emerging environmental factors. Plus, we have one heck of a 10th anniversary party planned.

What to Expect: At this annual trade show, marina, boatyard and private dock owners and operators will have access to the latest training, products, and services. Engage with over **175 marina-focused exhibitors** and participate in **20 industry-sourced, expertly curated education sessions**.

Who Should Attend: This event is perfect for both seasoned industry professionals and emerging marina talent. It caters to both **inland and coastal marina operations**, and professionals who depend on the marina or boating industry are encouraged to attend. Whether you're a returning attendee or new to Docks, make sure your marina operation is represented at this marquee industry event.

Why Nashville: Docks continues its tradition in the vibrant Music City this December. **Nashville's central location makes it easily accessible for attendees nationwide.** With the Music City Center and the Hilton Downtown Nashville just steps away, you'll be in the heart of world-famous dining, honky tonks and live music at every corner.

What's Included: Attendee registration includes everything – no add-on charges. Online registration is now open. Sign up early and save. **Discounted Registration for only \$265 runs through September 27.**

Make plans to attend The Docks Expo & Marina Conference and be a part of this landmark year.

Schedule

Monday, December 9

7:15 am - 5:15 pm	Docks and Marinas© Course <i>(separate registration required)</i>
-------------------	--

Tuesday, December 10

7:15 am - 1:45 pm	Docks and Marinas© Course <i>(separate registration required)</i>
8:00 am - 5:30 pm	REGISTRATION
8:00 am - 4:00 pm	Exhibitor Move-in
12:00 pm	COFFEE BAR
12:30 - 1:30 pm	OPENING SESSION: Post Covid Economics - Lessons Learned from a Prior Boom and Bust <i>sponsored by AMG Insurance International LLC</i>
1:45 - 2:45 pm	Electric Money: Emerging Business Models in Electric Propulsion
	Keeping Afloat with Marina Regulations and Codes
3:00 - 4:00 pm	Implementing Green Infrastructure at Marinas
	Introduction to Wi-Fi Systems for Marinas
4:15 - 5:15 pm	2025 Workplace Law Update - 10 Essential Items That Must Be on Your To-Do List
	Havasu Riviera Marina Case Study
5:15 pm	WELCOME RECEPTION <i>sponsored by OTIS Dock Repair LLC</i>

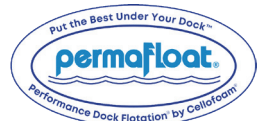

Wednesday, December 11

8:00 am - 5:00 pm	REGISTRATION
9:00 am - 5:00 pm	EXHIBIT HOURS
9:00 am	COFFEE BAR <i>sponsored by Golden Boat Lifts & Marine Systems</i>
9:15 am	PRODUCT DEMO
9:30 - 10:30 am	Lithium Ion - An Electrifying Topic
	Insurance Bootcamp - Is Your Marine Facility Properly Insured?
10:45 am	PRODUCT DEMO
11:00 am - 12:00 pm	Valuing a Marina: Real World Factors that Impact Insurance Claims and Investment Opportunities
	What's coming for the 2026 National Electric Code
12:00 - 1:00 pm	LUNCH ON THE TRADESHOW FLOOR <i>sponsored by Scribble Software, Inc.</i>
12:45 pm	PRODUCT DEMO
1:00 - 2:00 pm	Revenue Generating Ideas Marinas Might Not Think Of
	Your MGL (Marine General Liability) Policy - How To Navigate Safely In A Legally Tumultuous Sea
2:00 - 2:30 pm	ICE CREAM SOCIAL <i>sponsored by Sea Land Insurance Corporation</i>
2:30 - 3:30 pm	Inspections, Condition Assessments and Rehabilitation Plans for Your Marina
	The Non-Emergency, Emergency!
3:45 pm	PRODUCT DEMO
4:00 - 5:00 pm	HAPPY HOUR ON THE TRADESHOW FLOOR <i>sponsored by Waterfront Brands / HydroHoist Boat Lifts</i>

Wednesday, December 11	
5:30 - 7:30 pm	THE DOCKS EXPO 10TH ANNIVERSARY PARTY AT DRAFTKINGS SPORTS & SOCIAL AND PBR AT NASHVILLE LIVE! <i>sponsored by Bellingham Marine (included with registration)</i>

Thursday, December 12	
8:00 am - 2:00 pm	REGISTRATION
9:00 am - 2:00 pm	EXHIBIT HOURS
9:00 am	COFFEE BAR
9:00 am	BLOODY MARY BAR <i>sponsored by Marina Electrical Equipment and Marinetek</i>
9:15 am	PRODUCT DEMO
9:30 - 10:30 am	Profit Center Trends – Boosting the Bottom Line Cyber Insurance – How to Protect Your Small Business
10:45 am	PRODUCT DEMO
11:00 am - 12:00 pm	Dock Anchors: What Really is Their Holding Capacity? The Future of Dry Stack Boat Storage
12:30 - 2:00 pm	AWARDS LUNCH & CLOSING SESSION

Docks and Marinas©

December 9–10 • Music City Center

The **Docks and Marinas© Course** is the preeminent course for marina engineers, designers, managers and owners. It will be offered in conjunction with The Docks Expo & Marina Conference. The instructors, who are nationally recognized experts, will provide you with unbiased and practical information that you can immediately put to use.

This course will benefit marine industry professionals, including: **engineers; architects; designers/planners; owners/operators; manufacturers/suppliers; builders/developers.**

Interdisciplinary
Professional Programs
COLLEGE OF ENGINEERING
UNIVERSITY OF WISCONSIN-MADISON

▶ Separate registration is required to attend this course.
Learn more and enroll now: go.wisc.edu/DocksAndMarinas2024

*Course participants will also receive complimentary passes to attend The Docks Expo & Marina Conference
Credits given through the University of Wisconsin-Madison: CEU: 1.4; PDH: 14*

CELEBRATE WITH DOCKS

Wednesday, Dec. 11 @ Nashville Live!
5:30-7:30pm

NASHVILLE
Live!

sponsored by
Bellingham
MARINE
*The World's Most Comprehensive
Marina Builder*

This year's official party will celebrate the **Docks Expo's 10th anniversary**. After a full day of networking and education, head over to Nashville Live!, located in the heart of downtown Nashville on 2nd Ave. With amazing views of the Cumberland River, this multi-level complex is home to Draft Kings Sports & PBR Cowboy Bar. The event will feature plenty of food, beer, interactive games and a mechanical bull! Access to this event is included in #Docks2024 registration.

Education Sessions

TUESDAY, DECEMBER 10

Opening Session: 12:30-1:30 pm Post Covid Economics - Lessons Learned from a Prior Boom and Bust

Mitch Belter, R. A. Belter Insurance Agency

Daniel K. Rutherford, Director, One80 Marine Claims

In the late 1980s, there was a run-up to an incredible economic boom. Then... the bottom fell out. Dealers, marinas and boatyards who went through that time seem better prepared for this post-COVID environment. This session will cover the runup to the COVID boom and the current state of affairs, how to plan for success and how to mitigate loss in this economically challenged environment. Topics will include inventory, labor, sales, employee training and retention and more.

Electric Money- 1:45-2:45 pm Emerging Business Models in Electric Propulsion

Moderator: James Whitman, Coastal Communities

Trevor Burgess, Co-Founder & CEO, VoltSafe

Erick Pinzon, Co-Owner, Electrified Marina

Scott Canning, Aqua SuperPower

Amidst the hype, the hoopla and the haters, there is a group of entrepreneurs doing the hard work of building businesses to serve boaters with electric propulsion. Three business people who are creating profitable businesses, will cut through the static and focus on what is real and where they see money being made. While some industry veterans remain resistant to the technology, this group is capitalizing on it to attract new boaters who appreciate the quiet operation and dramatically simpler maintenance of this new way of being on the water. The discussion will include use cases, ways of exposing consumers to the technology and profit opportunities in the space.

Keeping Afloat with Marina 1:45-2:45 pm Regulations and Codes

Dan Williams, PLA, ASLA, AHL, MSA Professional Services, Inc.

Marcus Rue, PE - Senior Project Engineer, MSA Professional Services, Inc.

Marinas are a complex matrix of materials, utilities and operational components that are up against ever-evolving local regulations, state mandates, or codes that could necessitate a full overhaul or replacement. This session will explore some of the latest compliance issues challenging marinas today, including rulings on non-encapsulated floats, anchoring systems, utility systems, microplastics and more — with a discussion about why compliance matters and how marinas can achieve it in the most cost-effective manner.

Implementing Green 3:00-4:00 pm Infrastructure at Marinas

Gregory Weykamp, ASLA, LEED AP BD+C, President, Edgewater Resources, LLC

Sarah Orlando, Ohio Clean Marinas Program Manager

This session will explore several case studies where concepts

such as soft, planted shorelines replaced vertical hardened walls, resulting in a calmer wave climate, a better-looking edge, cleaner water in the basin, a faster permitting process and lower costs. The session will also focus on green infrastructure being implemented at marinas in three Great Lakes states. Learn about best practices, innovative tools to combat stormwater and lessons learned for increasing adoption of green infrastructure.

Introduction to Wi-Fi 3:00-4:00 pm Systems for Marinas

Drew Gates, El, Maffett Loftis Engineering

Every day the world becomes even more interconnected via the internet, with Wi-Fi networks everywhere you go. But how to install and implement a Wi-Fi system at a marina that works and keeps everyone happy can become extremely confusing. This session will go through the basics of what makes a Wi-Fi network, how to build the infrastructure to support that network, and how to use the system to create revenue for your marina. After this class, an owner / operator will be able to make informed decisions on what their marina needs and understand the basic operation of Wi-Fi networks.

2025 Workplace Law Update 4:15-5:15 pm 10 Essential Items That Must Be on Your To-Do List.

Robert Smith, Safety Consultant, Fisher Phillips LLP

Travis Vance, Regional Managing Partner, Fisher Phillips LLP

As labor and employment laws evolve at a rapid pace, it's hard to keep up with all the recent changes. This session will provide a review of some critical developments and a checklist of the essential items you should consider addressing in 2025 and beyond. Learn how to stay on top of the latest changes and create an action plan for compliance. Topics will include new OSHA programs, child labor issues and wage/hour topics.

Havasu Riviera Marina Case Study 4:15-5:15 pm

Christopher Goshaw, Owner and Principal, International Waterfront Consultants LLC

Mychal Gorden, RLA, Owner, Desert Land Group/ Havasu Riviera Marina

Luke Still, MAI, Owner, Desert Land Group/ Havasu Riviera Marina

The recently constructed Havasu Riviera Marina is a state-of-the-art facility along the shoreline of Lake Havasu, in Lake Havasu City, AZ. The project was a result of a multi-agency public-private partnership between Arizona State Parks and Trails, Lake Havasu City, Bureau of Land Management and the private concessionaire. The vision, planning and entitlements for this monumental project were over 20 years in the making. The presentation will first provide an overview of the project from inception through to operation and then will go into a detailed discussion on some of the unique design and construction features of the project.

Education Sessions

WEDNESDAY, DECEMBER 11

Lithium Ion - An Electrifying Topic 9:30-10:30 am

*Moderator: Daniel K. Rutherford, Director, One80 Marine Claims
Kerry Gonzalez, CEO, AMG Insurance International
Jonathan K. Klopman, Marine Surveyor NAMS-CMS IAM
Brian Goodwin, Technical Director, ABYC*

Toys, tools, boats, batteries... Are they safe? Are they insurable? Are there differences in product and application? Is the marine industry really ready to embrace the all electric vessel? At what cost? This panel discussion will bring a variety of viewpoints from the development of standards, to safety and insurance, to real world experience in the field.

Insurance Bootcamp - Is Your Marine Facility Properly Insured? 9:30-10:30 am

Lori J. Sousa, President, Sea-Land Insurance Corp

This workshop will educate the owners/managers on the coverages that are required to protect their facilities, along with some hidden dangers that most facilities do not think about. The goal is to provide the audience with a clear understanding of the insurance they purchase and what may be missing. We will cover not only the marine liabilities, but also Employment Practices Liability, Crime, Auto, Equipment Coverages, Cyber and the difference between Excess Liability and an Umbrella (Bumbershoot). With a glance at property and dock coverage.

Valuing a Marina: Real World Factors That Impact Insurance Claims and Investment Opportunities? 11:00 am -12:00 pm

*Dan Grovatt, Senior Vice President, Colliers
DJ Tyler, Vice president & Co-owner, Marine Specialties Limited*

What are the real-world factors that investors and insurance providers consider when valuing a marina? Experts in the real estate and insurance industries will answer this question discussing the importance of correct valuation for potential investors and insurance. The panel will provide perspective from representatives across the spectrum of marina investment.

What's Coming For The 2026 National Electric Code 11:00 am -12:00 pm

Gary D. Loftis, PE, Maffett Loftis Engineering, LLC.

NFPA is completing the new edition of the National Electric Code (NEC) for the 2026 code cycle. Gary D. Loftis, PE of Maffett Loftis Engineering, sits on Code Making Panel 07 which regulates the electrical codes for the marina industry. He will provide insight into the new regulations that will affect the electrical equipment and wiring requirements for marinas. For background, the 2023 Edition will also be reviewed because many states will be (or already have) adopted the 2023 edition. Reviewing these requirements will be something the attendees will need and want to know so they can plan on what is coming. There are some very interesting changes to both the 2023 and 2026 Editions of the NEC.

Revenue Generating Ideas Marinas Might Not Think Of 1:00-2:00 pm

*Moderator: Kyle Bostwick, Marina Manager, Ferry Dock Marinas
Roxanne Rockvam, GM, Rockvam Boatyards
J Jeremy Parks, Trident Marine Group
Kenneth Robinson, Regional Director - Southeast, Suntex Marinas
Sam Claitor, Hammer and Nail Marketing*

This panel will bring together a group of successful marina owners and operators as they discuss and share revenue generating ideas that might not be known to the industry. Attendees are encouraged to join the discussion and share insights, ideas and lessons learned.

Your MGL (Marine General Liability) Policy - How To Navigate Safely In a Legally Tumultuous Sea 1:00-2:00 pm

*Daniel K. Rutherford, Director, One80 Marine Claims
Kerry Gonzalez, CEO, AMG Insurance International*

This course will discuss legal strategies to help limit your liability, mitigate loss, learn what to do in the event of an accident or loss, and how to both avoid risk and transfer risk. The session will cover litigation strategies and recent nuclear verdicts that marinas need to be concerned with, as well as the current state of marine general liability claims and investigation.

Inspections, Condition Assessments And Rehabilitation Plans For Your Marina 2:30-3:30 pm

Jack Cox, PE, Sr. Principal & Director of Engineering, Edgewater Resources

Regular inspection of marina infrastructure often gets set aside but can help you identify issues before they become critical safety concerns. Catching weak links proactively will aid in long-term maintenance planning for any marina. This presentation will focus on common issues observed in marinas, when to contact engineering and design professionals, the recommended frequency of professional inspections, various types and levels of inspections and standard reference manuals used throughout the port and marina industries (such as the American Society of Engineers' Manual No. 130). Repair, rehabilitation and reconstruction methods and strategies will also be a focus.

The Non-Emergency, Emergency! 2:30-3:30 pm

Roxanne Rockvam, GM, Rockvam Boatyards

Let's chat about the plan that no one makes but everyone needs. What happens if right now your key decision-maker was gone? For 63 years my dad was in charge of our marina, then in March, he passed just 14 days from his diagnosis of cancer. What would you do? Hear my journey, learn what I am doing and how to plan for this. Attendees will leave with a checklist and the beginning of a plan I hope you never need. Emergency contingency plans are not just for storms and fires... sometimes the emergency is silent.

THURSDAY, DECEMBER 12

**Profit Center Trends:
Boosting the Bottom Line**

9:30-10:30 am

Ron Martin, Director, Waterfront Brands/HydroHoist Boat Lifts
Bill Drage, Principal owner, East Coast Houseboats
Nicholas Mastrionni, Chief Strategy Officer, Carefree Boat Clubs

Marinas can increase top line sales by offering added value to their customers through the installation of boat lifts and PWC (Personal Watercraft) ports, and leasing to, or opening their own, boat clubs and boat rental operations. This panel discussion will outline the potential benefits and financial impact of incorporating these amenities into marina facilities. Learn from industry veterans how to increase occupancy, enhance customer experience and generate new income.

**Cyber Insurance:
How To Protect Your Small Business**

9:30-10:30 am

Lori J. Sousa, President, Sea-Land Insurance Corp
Joe Revier, Co-founder, Slipify

Small businesses have a heightened risk when it comes to cyber criminals due to a lack of security infrastructure. As technology continues to advance the methods used by cybercriminals have transformed such as Man-in-the-Middle Attacks (MITM), phishing, malware and data breaches. Learn the threats, and how to protect the personal information of customers, employees, and the business itself.

**Dock Anchors: What Really
Is Their Holding Capacity?**

11:00 am -12:00 pm

Christopher Goshaw, Owner and Principal, International Waterfront Consultants LLC

The anchoring of floating docks is one of the most critical elements to the safety and security of any marina, however marinas may know little about the capacity and holding power of dock anchors. This presentation will provide an overview of the various types of dock anchors commonly used including guide piles, spud piles, deadweight block and cable/chain/rope/elastic moorings, and helical screw and cable/chain/rope/elastic moorings. Issues, concerns and recent advances with various anchoring options will be shared, along with recommendations on testing and validating the capacity of dock anchors.

**The Future of Dry Stack
Boat Storage The Future
of Dry Stack Marinas**

11:00 am -12:00 pm

David Brown, Director of Business Development at GCM
Ronald E. Schults, PE, Principal & Chairman, Edgewater Group, LLC
David Coyle, Mack David Buildings

The future of dry stack marinas is undergoing an exciting and long-awaited transformation. This panel session will address the options available to marinas from traditional forklift operations and fixed and cable crane systems to new wind-resistant storage building designs and automated storage and retrieval technologies. Experts will provide information on how marinas can create space-saving and financially advantageous solutions for boat storage.

The Awards Lunch & Closing Session

Thursday, Dec. 12 @ 12:30 pm

Marina of the Year

Each year, *Marina Dock Age* honors two marinas (one small, less than 250 slips, and one large) with the Marina of the Year awards. Facilities from across the country complete detailed applications, competing in many different categories – business operations, renovations, advertising/marketing, community and industry involvement, special challenges and more.

Marina Dock Age will present additional awards in other categories, such as Facility Improvements, Advertising and Marketing and Environmental Responsibility. Awards will vary from year to year, depending on the qualified applicants. Marinas can win category awards each year, and former Marina of the Year winners are also eligible to win additional category awards every year. The winning marinas will be featured in *Marina Dock Age* magazine in 2025.

2023 Winners:

Large Winner – Hurricane Marina • Silver Point, Tennessee

Small Winner – Lighthouse Point Marina • Baltimore, Maryland

Young Leader Award

The Docks Expo & Marina Conference is accepting nominations for men and women under the age of 40, who have made significant contributions to the marina and boatyard industry and collectively promise to play a big role in shaping its future.

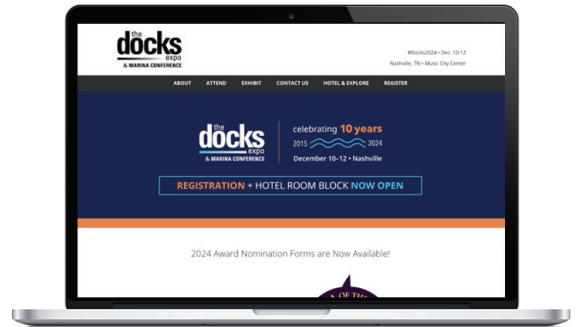

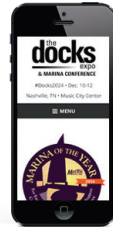

We are looking for nominees that represent the broad range of employment opportunities in the industry. Awards will be presented to young marina and boatyard owners, managers and staff; marina consultants, engineers or other professional service providers; manufacturers and suppliers of marina and boatyard products, or other professions that rely on the marina and boatyard industry for their businesses.

▶ **2024 Marina of the Year & Young Leader Award nominations are due Oct. 3.**

Visit docksexpo.com/nominate to learn more or to submit a nomination form. All winners will be honored during an awards ceremony at The Docks Expo.

Online Registration

Attendee registration is all-inclusive and covers access to the trade show floor, 175 exhibitors, 20 expert-led education sessions, product demos, and opportunities to reconnect. Sign up early & save!

2024 Attendee Pricing
